Soft Construction

Construction and Quiet Area are two of the most popular areas of the Bandelier cafeteria. After witnessing a merging of the two areas-construction happening in quiet area by way of pillow forts and cushion obstacle courses, our Director Cindra created an entirely new area; Soft Construction. Cindra provided us with an extra couch set (cushions assembled into a couch) some special blankets and pillows with a nature touch, a few plushie friends and even some extra soft carpets! Now we have an entirely new area dedicated to comfortable building and exploring that allows us to keep the quiet sanctity of the Home-Like Area and the structure of the Construction Area while merging the two into their own unique area!

So, if you find yourself in the Bandelier cafeteria, be sure to check out our brand-new area and even join in the fun of Soft Construction!

Snow at Bandelier!

Fun in the snow this week at Bandelier! Izzy and Daphne made a mini snow man! They rushed inside to create a scarf and hat. Izzy said, "Every snowman needs a top hat and a scarf to be official!" Many of us drew in the thin layer of snow smiley faces, angels, and our names! It was only a quarter of an inch of snow but it was definitely a fun morning surprise!

Field Trip Fun!

Some skating fun to get us in the winter mood this winter break. While it has been a mild winter so far here in Albuquerque, at the Outpost Ice Arena, the ice is solid and we took full advantage! Who knows? We may have some future hockey players or figure skaters in our midst!

Luckily, the Natural History Museum is always packed with fun and education no matter the weather! Some of our kids drew their heads into their sweater as the dinosaur "ate their head" and we created some cool rover builds!
